Objective

I am currently looking for a full time position in an environment that offers a greater challenge, increased benefits for my family, and the opportunity to help the company advance efficiently and productively.

Experience

Biz4D **1st June 20222 - 31st August 2022**
Software Developer
In Biz4D I focused on server, Docker, GitHub, and SuiteCRM. Additionally, I was responsible for ensuring the smooth installation of two software products developed by the company. This entailed identifying and resolving installation errors while maintaining thorough documentation of the processes.

Education

Saraswati College Of Engineering
Bachelor of Engineering in Information Technology
2019 - 2023 — **80 %**

Guru Nanak Khalsa College
HSC
2017 - 2019 — **79.36 %**

Shri Sanatana Dharma High School
SSC
2017 — **82.6 %**

Skills

- Python, Django, Flask
- HTML, JS, PHP
- MySQL

Projects

Stock Price Prediction Using Machine Learning (Django Framework)
This is a website which uses Machine Learning. User had to select any stock and this website Will predicts it's future price. I used LSTM algorithm.

RecruitEMP(Flask and ReactJs)
Here we made a Website which is helpful for the employer to recruit the employees.

Polls Management (Python Tkinter)
This is an online voting system. Where user can vote by using their login credentials and to authenticate the person, I sent OTP for confirmation on thier Mobile and Email.

TP's Quiz (Java)
It's a quiz based program where GK / Sports / History etc were categories. Every category have set of questions and every question have 4 option and contains 1 point.

Freelancing Work

I have developed(Template Based) and deployed two websites using HTML, CSS, and PHP. Both websites are currently live and accessible to users on the internet.

I have created two mobile applications using the Flutter, and one of these apps are available for download on the Google Play Store.

Additional Information

During the COVID-19, I held the position of Hardware Engineer at Udyam Impex Pvt. Ltd for a duration of nine months(Sept 2021 to Feb2022). There My duties included diagnosing and rectifying hardware and software problems, ensuring the seamless functioning of computer systems, and providing technical support to clients.
